

ADVANCED: SALESFORCE MOBILE FOR IOS AND ANDROID:

Visualforce Assessment

Optimize Visualforce customizations for mobile.

Give your mobile users an intuitive user interface on every screen. During this Accelerator, a Specialist will show you developers tips, tricks, and best practices around updating Visualforce pages for the app.

What it can do for you

- Increased employee efficiency and productivity through mobile
- Provide on-par capabilities for the workforce
- Reduce time between idea and solution
- Improved agility, flexibility, adoption, and utilization of business processes

How It Works

A Certified Specialist will guide you through the process via four calls totaling 4 hours over 4 weeks.

Discovery

- Review your current environment
- Identify candidate for Visualforce implementation

Analysis

- Analyze requirements and recommend best approach
- Document workshop summary

Outcomes

- Personalized code-level recommendations for modifying one customer Visualforce page for use in the app
- Code samples, tools, and resource links
- Wireframe/mockup of potential design direction optimized for mobile form factor

ADDITIONAL INFORMATION

Premier or Signature

Time you will spend on this Accelerator: 4 hours

GOAL

Achieve faster ROI.

INTENDED USER

Customers having trouble creating, or adapting existing, Visualforce pages for use in Salesforce.

PREREQUISITES

- Must have Premier or Signature Success Plan
- A line of business stakeholder who can articulate the business processes existing Visualforce customizations are built on
- No unmet security/MDM requirements preventing widespread Salesforce usage
- A technical stakeholder who can articulate the architecture and code-level details of existing Visualforce page customizations
- A technical resource with knowledge of Visualforce, Apex, Javascript, and CSS
